

REDUCED SALARIES PROBABLE.

At the time of the strike of the engineers on the elevated road in New York, I had a part in bringing the representatives of the engineers and the late Cyrus W. Field, a director in the elevated company, to a meeting that resulted in a quick understanding between the conflicting interests and an ending of the strike. Mr. Field was so pleased with the fairness of the committee representing the engineers with whom he had to deal that he invited them at once to dine with him at Delmonico's, an invitation which their representatives declined for them, fearing that its acceptance might be misunderstood. Mr. Field, however, continued to feel that he wished to extend some social courtesy to the employees of the elevated road, and at a later date, when he was all powerful in that corporation, he issued a formal invitation to employees to a reception at his house. To a large number the initials "R. S. V. P." on the lower corner of the invitation were a great mystery, and as the story goes, the invited compared notes and sought an explanation of them. At last one bright young man announced that he had discovered what they meant, and explained to the others that "R. S. V. P." stood for "Reduced salaries very probable."—[Harper's Drawer.

LEMONADE WITH HOT WATER.

"I learned a new thing," said a woman, recently, "while visiting an English friend who is living in this country. We had a small dance one evening of my stay, and my hostess served the most delicious lemonade I ever drank. I spoke of it the next day, and she told me it was made with freshly boiled water—the secret, she said, of thoroughly good lemonade. 'I have a regular rule,' she further informed me, 'which insures success if I am making a quart or a gallon. For a quart I take the juice of three lemons, using the rind of one of them. I am careful to peel the rind very thin, getting just the yellow outside; this I cut into pieces and put with the juice and powdered sugar, of which I use two ounces to the quart, in a jug or jar with a cover. When the water is just at the ten point I pour over the lemon and sugar, cover at once and let it get cold. Try this way once and you will never make it any other way.'"

TA-RA-BOOM IN AFRICA.

Ta-ra-boom-de-ay, according to the latest accounts, has effected a landing on the Dark continent, and has been heard of at Sierra Leone, a place known as the white man's grave. Sung at a concert at Free-town, it appears to have electrified the native part of the audience, who took up the refrain with such alarming energy that the less adventurous portion of the assembly found the outside of the building more desirable than the inside. Within a few days the tune had spread to the surrounding districts, and when the last mail steamers left, Sierra Leone was groaning under the tyranny which raged on these shores only a short time ago.

WHY MONEY IS SCARCE.

Money is not plentiful because it is hoarded. It is legally right for a man to do what he will with his own money, but there is a moral obligation to put it to some use. In the parable of the talents the man who made no use of what was given him lost what he had, and the penalty was rated just. And in this day, people take satisfaction in the recital of anecdotes of those scared individuals who hide their money in old boots and stockings only to lose it. There is too much money hidden, metaphorically speaking, in boots and stockings, money that ought to be put at interest at some price. The banks cannot supply the business community with money unless it is deposited with them.—[Boston Herald.

CAUSE FOR THANKFULNESS.

There are 22 licensed saloons in Fitchburg, Mass., and the Sentinel says that \$3000 a day will not pay the drink bill of the city. With 300 selling days in the year it is evident that Fitchburg is paying nearly a million dollars a year for drink. A showing like this in a progressive city of 25,000 inhabitants is one of the facts which causes Vermont people to be devoutly thankful for prohibition.—[Brattleboro Phoenix.

ALL SORTS.

Perils of Modern Life.

Contacts with electric wires, railroad accidents, broken car and elevator cables, explosions of steam, and natural gas and chemicals, poisons in adulterated food and drink, are few! but all these dangers combine to kill as rapidly as slow and sure as Consumption. The death rate, however, from Consumption, is being yearly cut down since Dr. Pierce of Buffalo, N. Y., has given to the world his celebrated "Golden Medical Discovery," a cure for Consumption and Throat and Lung troubles that lead to Consumption if taken in time and given a fair trial. The time to cure Consumption (which is really nothing more or less than lung-scrophula) is in the first stages. A cough generally sounds the alarm, and you should take the "Discovery" at once. There is a time when it is too late.

The bones and muscles of the human body are capable of over 1200 different movements.

"My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recom-

mend it to all who need a diarrhoea or colic medicine. J. E. Hare, Trenton, Tex.; 25 and 50 cent bottles for sale by Flint Bros.

A Leader.

Since its introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medical tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for ailments of the stomach, liver or kidneys.—It will cure sick headache, indigestion, constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by Flint Bros.

Samuel Waldo, a Royalton boy, was killed by falling from a barn loft.

For a cut, bruise, burn or scald, there is nothing equal to Chamberlain's Pain Balm. It heals the parts more quickly than any other application, and unless the injury is severe, no scar is left. For sale by Flint Bros.

Chicago, Denver and Cincinnati Physicians fail to help Mrs. Willey.

DR. KENNEDY'S FAVORITE REMEDY AGAIN CURES WHERE ALL ELSE FAIL.

To the Editor:—I believe that I can help the sick and suffering by giving them the benefit of my experience.

For many years I have suffered from rheumatism complicated with neuralgia and severe headaches, at regular intervals with the illness peculiar to my sex at times almost crazy with pains in my head and body. I have employed physicians in Denver, Chicago, here and other cities who have given me temporary relief.

Some time ago I began the use of Dr. David Kennedy's favorite remedy, and it has done me more good than all the doctors put together. I am better now than I have been in years and my neighbors will vouch for the great improvement Favorite Remedy has made in me. I have recommended Favorite Remedy to many of my friends and it has in every case helped them.

Having found a medicine that has demonstrated its power to benefit and cure in such a complicated case as my own, I feel it a duty to make it known publicly so that the many suffering ones in this city can avail themselves of it.

MRS. A. WILLEY, Cincinnati, O.

Dr. Kennedy's Favorite Remedy has certainly made many wonderful cures in cases where the skill and methods of other physicians have been baffled. Dr. Kennedy has prescribed Favorite Remedy and it has produced permanent recovery in rheumatism, dyspepsia, liver and kidney complaints which always arise from acidity of blood.
